1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 15-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In independent claim 15 as newly-amended, the addition of the phrase "via a computation unit" in the first of the algorithmic method steps of the claim (viz., "processing ... a vertical profile ...") raises a question as to whether all three algorithmic steps (i.e., "processing ...," "integrating ...," and "determining ...") are performed "via the computation unit" or merely the algorithmic step of "processing ...". One of ordinary skill-in-the-art would expect all three of the algorithmic steps of claim 15 to be performed "via a computation unit," but the newly-amended claim language does not seem to clearly state this to be the case. If all three algorithmic steps are not performed "via a computation unit," then it is unclear in context by what instrumentality the second and third algorithmic steps are performed. Substantially the same problem occurs in independent method claim 29 due to the addition of the new phrase "via a computation unit" in the algorithmic method step of "processing ... a vertical profile ...".

Dependent claims 16-28 and 30-34 are unclear at least in that they respectively depend from unclear independent claims 15 and 29.

3. Claims 15 and 29 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Claims 16-28 and 30-34 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
